

White-tailed Deer Bucks:100 Does - 2023

Mean number of white-tailed deer bucks per 100 does in Alberta WMUs, based on the trips (surveys) completed in ABHuntLog between September 1 and December 31, 2023. WMUs with grey boundaries had no white-tailed deer data submitted, while those with thin black boundaries had white-tailed deer observations but no doe data collected so a sex ratio could not be calculated.
